

Veterans Affairs Learning Opportunities Residency

Looking for an exciting opportunity to explore a variety of career opportunities in pharmacy?

The VALOR program offers participants the chance to gain experience in and explore all areas of VA pharmacy practice.

Pharmacists in the VA are actively involved in a wide range of patient care activities, including inpatient, outpatient, and ambulatory care services. They have an extensive scope of practice, including prescriptive authority.

Some of the areas of pharmacy practice VALOR students will have the opportunity to explore include:

- Anticoagulation
- Pharmacotherapy
- Inpatient Internal Medicine
- Community Living Center
- Hospice Care
- Home Based Primary Care
- Administration
- Psychiatry
- Pain management
- Hepatitis C
- and more!

Explore the VA through the VALOR program and find out first-hand what opportunities exist!

The Sheridan VAHCS is a mental health and primary care facility which serves nearly 12,500 Veterans yearly. The Health Care System boasts eight Community Based Outpatient Clinics, strategically located across Wyoming.

Pharmacy Student Summer Internship

VA Learning Opportunity Residency (VALOR) Program

Sheridan VA
Healthcare System
Sheridan, WY

What is the VALOR Program?

VALOR is an internship at Sheridan VA Health

Care system that provides opportunities for outstanding pharmacy students to develop pharmacy practice skills. The majority of hours are during the summer, but there may be an opportunity to extend this internship into the school year as well. Students spend a total of 400 hours working with pharmacy residents, technicians and clinical pharmacy specialists in a variety of pharmacy practice settings including:

Outpatient Pharmacy:

Students will develop skills in prescription review and dispensing, medication counseling, staff education, and medication distribution systems.

Inpatient Pharmacy

Students will participate in IV admixture, kinetics monitoring, medication reconciliation, inpatient anticoag and discharge counseling.

Ambulatory Care:

Students will shadow Clinical Pharmacist and interview patients in a variety of disease-state management clinics such as anticoagulation, diabetes, dyslipidemia, hypertension, and heart failure.

Formulary Management/Administration

Students will work on formulary and administrative projects relevant to patient care at the VA.

Other Opportunities

Students are expected to attend and present topic/case discussions and journal clubs.

Why Participate?

VALOR interns gain competency in many areas of pharmacy. They have the chance to:

- Identify various roles of pharmacists in the VA healthcare system
- Interact with other healthcare providers
- Experience a wide variety of potential roles for pharmacists
- Apply the process for gathering data from patients and medical charts to formulate solutions to therapeutic problems
- Appropriately document patient care activities
- Apply clinical knowledge learned in the classroom to clinical practice
